

Overland Communication By Land And Water Through British North America, June, 1867

DARWIN CORRESPONDENCE 155

What do you think of the Duke of Argyll's criticisms, and the more pretentious one in the last number of the *North British Review*?

I have written a little article answering them both, but I do not yet know where to get it published.—A. R. W.

76½ Westbourne Grove, Bayswater, W. October 1, 1867.

Dear Darwin,—I am sorry I was not in town when your note came. I took a short trip to Scotland after the British Association Meeting, and went up Ben Lawers. It was very cold and wet, and I could not find a companion, or I should have gone as far as Glen Roy.

My article on "Creation by Law," in reply to the Duke of Argyll and the *North British Reviewer*, is in the present month's number of the *Quarterly Journal of Science*. I cannot send you a copy because they do not allow separate copies to be printed.

There is a nice illustration of the predicted Madagascar moth and *Angracum sesquipedale*.

I shall be glad to know whether I have done it satisfactorily to you, and hope you will not be so very sparing of criticism as you usually are.

I hope you are getting on well with your great book. I hear a rumour that we are to have one vol. of it about Christmas.

I quite forget whether I told you that I have a little boy, now three months old, and have named him Herbert Spencer (having had a brother Herbert). I am now staying chiefly in the country at Hurstpierpoint, but come up to town once a month at least. You may address simply, "Hurstpierpoint, Sussex."

Hoping your health is tolerable and that all your family are well, believe me, dear Darwin, yours very faithfully,

ALFRED R. WALLACE.

Down, Bramley, Kent, S.E. October 12 and 13, 1867.

My dear Wallace,—I ordered the journal a long time ago, but by some oversight received it only yesterday and read it. You will think my praise not worth having from being so indiscriminate, but if I am to speak the truth, I must say I admire every word.
